Dear Rafi

Thank you very much. Please inform him that he can do the internship at IITH. He will be paid stipend on similar lines as other students from your institute. I am not sure of accommodation. He can talk to his friends here, Srikanth and Ramesh, for any logistics.

Best Regards,

Murty

Respected Sir

I found one student good at signal processing and he is interested to join as an intern at IITH. I have attached his resume for your reference.
