Nuzvid IIIT students design 18 projects for Nasa contest

RAJULAPUDI SRINIVAS

Fifty-seven students of Rajiv Gandhi University of Knowledge Technologies (RGUKT Krishna district, designed 18 projects on the themes such as journey to space, settler accommodation and other facilities in space, by using latest technology, as part of the Design Contest 2014.

The budding engineers will present their projects at the 33rd International Space Design Contest to be held at Los Angeles, USA, from May 14 to 18, said IIIT Director Ibrahim Khan.

“This is the first time that 18 projects got selected for ISDC, being hosted by National Institute of Space and Aeronautics. Last year, 13 projects were selected for the conference from the same institute. The institute guided the students for designing the projects.
